<sup>a</sup> No general Account of the Trade between Ireland and Great Britain can be rendered for the period subsequent to 1825, the commercial intercourse between the two Countries having, from the termination of that year, been assimilated by law to a coasting traffic. The particulars of Imports and Exports, exhibited in the foregoing statement for 1829, are consequently, with two exceptions, confined to the direct trade with Foreign Parts; the exceptions being, in the list of Exports, the article of Corn, which is exempted from the general tenor of the Coasting Regulations; and in the list of Imports, the article of Coals, which is subject to a Coasting Duty.

No. 260.—STATEMENT showing the ANNUAL AVERAGE QUANTITIES of the following ARTICLES EXPORTED from IRELAND in the Triennial Periods, ended 5th January, 1790, 1800, 1810, 1820, 1826, and 1830, and the Biennial Periods ended 5th January, 1832 and 1834, respectively; distinguishing the Exports to Great Britain from those to Foreign Countries, viz. Oxen, Sheep, Swine, Horses, Bacon and Hams, Beef and Pork, Butter, Wheat, and Wheat Flour, Oats and Oatmeal, Irish Spirits, Linen Manufactures, Linen Yarn, and Cotton Manufactures.

NOTE.—The view which this Statement affords of the Average Consumption of the Periods, terminating on 5th January, 1830, and 5th January, 1832, is to a certain extent defective, inasmuch as the Coasting Regulations, by which the Cross Channel Trade has been governed since the year 1825, prevent the keeping of any record of Goods imported Duty Free from Great Britain, either in the case of British Productions, or of Foreign Merchandise, upon which Duty has already been paid in a British Port. Of the Articles included in the present Account, those in respect to which the comparison is most affected by this circumstance, are Refined Sugar, Flax Seed, Cotton Wool, Cotton Yarn, Woollen Yarn, Raw and Thrown Silk, and Unwrought Iron.

The Consumption of Tea in Ireland cannot be ascertained for any Annual Period later than the year ended 5th January, 1828, a regulation having been established in the course of the following year, which requires that Tea, destined for Consumption in Ireland, shall be charged with Duty in Great Britain previously to its delivery from the Warehouses.

The Consumption of Coals cannot be shown for any year subsequent to 1830, it having ceased to be ascertainable on the discontinuance of the Coasting Duty.

No. 262.—STATEMENT of the RATES of DUTY chargeable on the following ARTICLES consumed in IRELAND, during the Triennial Periods, terminating on the 25th of March, 1790 and 1800, and the 5th of January, 1810, 1820, 1826, and 1830, and the Biennial Period, terminating on the 5th of January, 1832, respectively, viz. Wine, Spirits, Foreign and Home Made, Tobacco, Tea, Coffee, Sugar, Flax Seed, Cotton Yarn, Cotton Wool, Woollen and Worsted Yarn, Silk, Raw and Thrown, Iron Unwrought, Timber, Deals, and Coals.

\* In the year 1828 there was a great scarcity of Potatoes in Leinster, and also in the South of the Kingdom. In Connaught there was a great abundance, from whence there was brought by the Royal Canal to and towards Dublin 22,291 Tons 16 Cwts., which seasonable relief could not have been afforded but through the medium of this Navigation, and for which the Company only charged 2s. 6d. per Ton.

The principal Commodities conveyed to Dublin by the Royal Canal are Grain, Meal, Flour, Butter, Potatoes, Eggs, Turf, Timber, Bricks, and Stone. Merchandise of every description is forwarded from Dublin.

The Rates of Exchange formerly assumed for converting Indian Currencies into Sterling Money were as follows:—Bengal Current Rupees at 2s., 116 Current Rupees being equal in value to 100 Sicca Rupees; Madras Pagoda at 8s., each Pagoda equal to 3½ Madras Rupees; Bombay Rupees at 2s.

The foregoing Rates are now altered, and Indian Currencies are converted into Sterling by estimating the Bengal Sicca Rupee at 2s., and considering 106½ Madras and Bombay Rupees to equal 100 Sicca Rupees. The latter part of the foregoing statement, from 1829—30, inclusive, has been estimated according to the rates newly adopted, which will account for the great apparent difference between that and the former part of the statement.

Note.—There are no further particulars given of the Spanish Trade than what are stated above.

The Statements made up in China of the Trade of Individuals commence with the year 1817-18, the preceding four years are made up from the Indian Statements of External Commerce.

The Amount of the Trade of Individuals with China, above stated, includes the Trade carried on by the Commanders and Officers of the Company's Ships.

The Tonnage employed in the Trade of Individuals with China is taken from the Indian Statements of External Commerce, which at present have not been received later than the year 1828-29.

The Diaries of the East India Company's Factory at Canton contain the following particulars respecting the Foreign European Trade with China, in addition to what is stated above:—

In 1815-16 two Swedish Ships are stated to have been in China, the articles of Import and Export are given, but neither the Tonnage nor Value.

In 1826-27 one Danish and two French Ships are stated to have been in China, but no particulars whatever are given respecting these Ships.

In 1828-29 one Prussian, one Danish, three French, twenty-three Spanish, and eighteen Portuguese Ships

In 1829-30 four French, eleven Dutch, seven Danish, one Prussian, thirty-one Spanish, and twenty-two Portuguese Ships,

In 1830-31 one Danish, one Sardinian, twenty-six Spanish, and fifteen Portuguese Ships

| In the years 1811, 12, and 13, the earnings of a part of the spinners were reduced by restricted allowance of work, and not by a reduced state of wages.                                                                                                                                                                                                                                                                                                                                                                                                                                                     |        |          |         |          |             |       |          |           |       |       |                                                      |       |       |       |       |       |          |
| These are the net earnings of weavers, taken on the average of each year, after deducting 2½ pence in the shilling for winding the warp, flour, &c., used in dressing the warp, and other outgoings. Of these deductions the greater part is for war tax, which is generally done in the family. The principal articles of manufacture, and the earnings of men of ordinary skill, working 12 hours per day, have formed the basis of this statement. A considerable portion of the value of the goods is put down by men of ordinary skill, and the earnings will be according to their strength and skill. |        |          |         |          |             |       |          |           |       |       |                                                      |       |       |       |       |       |          |

NOTE.—In comparing the Prices at different Periods, as here stated, it is necessary to take into account the Rates of Discount allowed in reduction of the price: e. g.

German Steel Handsaws, in 1798, cost 50s. with allowance of 15 per cent. discount, leaving the actual net price 42s. 6d.  
The same article, in 1833, cost 64s. with allowance of 42½ per cent. discount, so that the actual net price was only 36s. 10d.

No separate account is kept of the number of Calves sold, but only of those brought into the market, the average of which for the last ten years is 21,526, exclusive of those denominated Sucklers, and which are generally sold with the Cows.

The number of Horses brought to the market for sale is estimated to be from 12,000 to 13,500 annually, but no account is kept of the number sold, it not being obligatory to register the sale.

No account is kept of the total number of Pigs sold in the market, but only of those chargeable with the toll, viz. those sold by non-freemen, brought from places where no exemption from the payment of the toll is claimed.

The annual average number for the last ten years on which Toll has been received is 23,990, and is presumed to be about 2-5ths of the whole number brought for sale.

which is the average clear weekly earnings of 10,000 of the frame-work knitters employed in Leicestershire during the last fifteen years; the clear weekly earnings of the other 4,000 have always been higher, and have varied at different times; sometimes being 20 per cent. more than above, sometimes 40 or 50 per cent. more.

The article of the 24-gauge plain worsted hose is the best criterion by which to judge of the general rate of labour, and it may be safely relied upon as an index to the average clear weekly earnings of two-thirds of the frame-work knitters, the other third have been constantly receiving much better wages; their weekly earnings being from 20 to 50 per cent. more.

\* N. B. A moiety of this 3s. (which the stocking maker expends in preparing his work) is generally earned by his family, as it is work which children can do.

N. B. The Town of Leicester contains about 40,000 inhabitants, and is divided into six parishes. The Parish of St. Margaret alone contains about 20,000 inhabitants, being half the population. The return from this parish, as above, in conjunction with the return from St. Mary's Parish, (which may be taken as a criterion for the other four parishes,) will, if the average be taken, show the amount of the poor rate for the town.

N. B. There are three Holidays in the Year, Easter, Whitstable, and Christmas, during which little or no Work is produced—a deficit of Two Weeks' Work is caused thereby in the Year's supply; and therefore *annually* means Fifty Weeks.

Since 1st July, 1833, the Labour in the Narrow and Wide Frames has advanced TEN PER CENT.

No. 356.—STATEMENT showing the whole ANNUAL PRODUCTION, in Dozens, and the Value of the HOSIERY and GLOVE MANUFACTURE, if the whole of the Machinery is in full Employ, with the Average Annual Export.

N.B.—The Number of People Employed in the Manufactory from which the above Return is obtained is about 1-10th of the whole Number Employed on the trade. The Number of Hands in the worst times has not been less than 120, generally nearly 200.

The Cotton, Angola, and part of the Lambs' Wool Yarn and Worsted used in the Hosiery and Glove Manufacture, has hitherto been spun at Kidderminster and in Yorkshire and Lancashire.—The discovery of Coal Mines within a few miles of Leicester may lead to the increase of the Spinning Trade, till all the material used in the Hosiery and Glove Trade (except Cotton and Linen Thread) shall be spun in Leicester and its vicinity.

BILLS OF MORTALITY FOR 1833.  
 Number of Baptisms in Newcastle, 1,642—decrease as compared with the preceding Year, 67  
 „ Marriages „ 798—increase „ 34  
 „ Burials „ 1,568—decrease „ 818  
 „ Baptisms in Gateshead, 463—decrease „ 11  
 „ Marriages „ 207—increase „ 37  
 „ Burials „ 403—decrease „ 218  
 The number of Burials both in Newcastle and Gateshead, for 1833, corresponds very nearly with those of 1831, and hence the extraordinary decrease as compared with 1832 may be taken as a near approximation to the extent of the cholera ravages in Newcastle and Gateshead, in that intermediate year.

The Market price of Gold in 1801 was 85s., and in 1811 was 96s. per oz. The average proportions of Expenditure for the Relief of the Poor, and for Duties and Taxes during those periods are not, therefore, correctly shown by the within Account when taken in comparison with the like payments in 1821 and 1831.

If the depreciated currency of the two former periods is reduced to its Standard Value according to the Mint price of Gold, the actual average proportions will be reduced as unsexed.

The Currency having returned, to its standard value prior to 1821, the proportions for the two last periods are correctly shown in the within account.—They are as follows,

| Year. | Average Proportion of Taxes. |    |    | Average Proportion of Poor's Rates. |    |    | Total.   |
